Mini Project (Rock , Paper, Scissors)

```
/**
 * The Rock, paper, or Scissors Game
 * This game will be played between the computer and human. Once Human will select a choice, the computer will also select a choice.
 * The Winner will be selected based on these rules:
 * - Rock can break Scissors ⇒ Rock wins
 * - Scissors can cut Paper ⇒ Scissors wins
 * - Paper can beat Rock ⇒ Paper wins
 * Ask the input from user and randomly select a computer selection to continue the game.
 */

/**
 * Assumptions :
 * 1. We have to prompt the user to get their inputs.
 * 2. The Computer's selection will be random.
 * 3. We have to compare user and computer's choice.
 * 4. We need to announce the winner.
 * 5. After the Winner announcement, we may want to ask the user to play again or not.
 */
```
